WORK EXPERIENCE

Salesforce Developer Virtual Internship
SmartInternz ✎
- Completed an 8-week virtual internship focused on Salesforce development from November to December 2023.
- Successfully covered essential Salesforce Trailhead modules, including Salesforce Fundamentals, Organizational Setup, Relationship & Process Automation, Types Of Flows & Security, Apex, Testing & Debugging, VS Code Setup & CLI Setup, and Lightning Web Components (LWC) & API.
- Attained proficiency in advanced Salesforce skills by completing Super Badges in Apex, Process Automation, and Developer Super Set.
- Gained hands-on experience in Salesforce development, including Apex coding, process automation, and Lightning Web Components (LWC).

PROJECTS

Personal Portfolio Website ✎
- Designed and developed a personal portfolio website from scratch using HTML, CSS, and JavaScript, showcasing my skills, projects, and personal background.
- Implemented responsive design principles to ensure optimal viewing experience across various devices and screen sizes.
- Utilized HTML to structure the content of the website.
- Applied CSS to style the website, incorporating modern design trends.
- Enhanced interactivity and user experience by integrating JavaScript functionalities.
- Leveraged version control systems like Git and GitHub for project management and collaboration.

Apple Vision Pro Clone ✎
- Developed a clone website inspired by Apple's Vision Pro website using HTML and CSS.
- Utilized Flexbox extensively to implement responsive design and improve layout efficiency.
- Demonstrated proficiency in frontend web development principles, including semantic HTML and CSS styling techniques.
- Implemented modern design practices to replicate the sleek and minimalist aesthetic of the original Apple website.

Amazon Clone ✎
- Developed a clone website inspired by amazon.com website using HTML and CSS.
- Demonstrated strong understanding and implementation of HTML structure.
- Showcased mastery in CSS styling techniques to replicate Amazon's design, highlighting attention to detail and precision in recreating complex layouts and visual elements.
- Exhibited proficiency in utilizing Flexbox for creating responsive and dynamic layouts, showcasing adaptability and understanding of modern CSS layout techniques.

QR Code Generator ✎
- Engineered a dynamic web-based QR code generator leveraging HTML, CSS, and JavaScript.
- Empowering users to seamlessly generate personalized QR codes tailored to diverse data formats including URLs, text snippets, and contact details.
- Designed an intuitive user interface with clear navigation and concise instructions, fostering ease of use and minimizing user friction in the QR code generation process.

TECHNICAL SKILLS

Java | DSA | OOPS | HTML | CSS | JavaScript | Salesforce | Git and Github | Flexbox
